Susan Norris, 928 Stonehenge Lane spoke in favor of the signalization. Cynthia Bitting, 6 Apple Tree Lane, asked about the upcoming Lindbergh closure and the possible repercussions on Conway Road.

Mayor Spewak appreciated the opinions shared and encouraged everyone to attend the open house on Thursday regarding the proposed signalization. Several Council Members will be in attendance, and the Mayor wants input from all involved. Staff will reach out to school officials to request their attendance.

Ms. Lamitola reported the intersection is not ADA compliant, the crosswalk does not lead to a sidewalk; however, there are other options to consider.

Public Hearings:

PH1: The City Council of the City of Ladue will hold a public hearing on a recommendation submitted by the Zoning and Planning Commission that the City Council approves a Special Use Permit for Truffles restaurant to enclose the outdoor seating area with a permanent structure. The property is located at 9202 Clayton Road. Zoning and Planning Commission recommends approval.

Council Member Hensley recused himself; Mayor Spewak declared the Public Hearing open with no objections.

Aleksandar Jovanovic, General Manager of Truffles, reported that because the outdoor area added for Covid-19 was so successful, a new four seasons, open structure is proposed with a lot of plants, natural light, heating, and air conditioning. There will be no impact on parking or on the Clayprice Center.

Ms. Sukanek shared the ADA parking requirements must be addressed.

Ms. Seele shared that the notice for tonight's Public Hearing as well as the Code of Ordinances including Ordinance 1175 as well as the entire packet is here made available and should be considered part of the public record.

Council Member Fox moved to close the public hearing, with second by Council Member Howell the motion passed unanimously.

Council Member Brennan moved approval to amend the Truffles Special Use Permit with second by Council Member Burroughs; the motion passed unanimously

PH2: The City Council will hold a public hearing on a recommendation submitted by the Zoning and Planning Commission that the City Council approves an amendment to the Ladue Zoning Ordinance (Ordinance #1175) regarding the process for approval of subdivision gates. Zoning and Planning Commission recommends approval.

Public Hearing 2 was opened upon motion by Council Member Fox and second by Council Member Burroughs; the motion passed unanimously.

Current Zoning Code discourages subdivision gates, gives the Zoning and Planning Commission the authority to approve subdivision gates but does not give specific criteria to help the Commissioners make a decision.

The Commission proposes gate requirements from subsection 4G to be moved and incorporated into a new subsection 4H and include the following:

- Required 25' Gate Setbacks
- Required Turn arounds
- Required Special Use Permit for installing subdivision gates

Gate approval requirements:

- Multiple intersections with public roads producing excessive traffic
- 2 or fewer residences on the Lane
- Excessive traffic must be demonstrated by a traffic study
- Exceptional security concerns must be demonstrated by police reports
- Gates to remain open from dawn to dusk
- Pedestrians must have 24 hour access
- Gate width must be at least the width of the street
- Preapproval of 75% of homeowners
- Fire Department requires electric entry must be on the Knox system.

Council Member Burroughs crafted two amendments to proposed Bill 2293.

Clifford Atkins, 34 Somerset Downs, addressed the Council concerning his difficulty in obtaining a subdivision gate and the obstacle in determining that excessive crime exists.

Mayor Spewak was accepting of his plight and stated that the Somerset Downs gate application precedes Bill 2293.

Commissioner Burroughs suggested legal advice to interpret the Ordinance and work through the process.

Chief Andreski reported Somerset Downs had one walk in crime event, and others were vehicular, the single entrance puts Somerset Downs in a different position.

Ms. Seele shared that the notice for tonight's Public Hearing as well as the entire Code of Ordinances and Ordinance 1175 as well as the file for the text amendment is here made available and should be considered part of the public record.

Council Member Fox moved to close the public hearing, with second by Council Member Howell; the motion passed unanimously.

Mayor Spewak read Bill 2292A, and a second reading was done by Council Member Howell.

Ms. Seele stated this Bill was changed to 2292A, in order to add the plat. This routine subdivision is in compliance, and the dedicated sidewalk easement needed further clarification.

Council Member Fox moved approval of Bill No. 2292A, with second by Council Member Brennen and the roll call vote thereupon was as follows:

Resolution 2021-54 – A resolution authorizing the Mayor to execute on behalf of the city a rights-of-way agreement with Everstream Solutions LLC

Ms. Seele reported the law allows us general consent to use the Right-of Ways with agreement. The code does require a Rights-of-Way Agreement. This is essentially our form agreement and covers relocation, insurance, and indemnification provisions to protect the City. It does have an amendment to exhibit A to contemplate House Bill 271-which is being challenged, regarding linear foot fees. Everstream will pay the fees while applicable.

Council Member Hensley moved to adopt Resolution No. 2021-54, with second by Council Member Burroughs the motion passed unanimously.

Resolution 2021-55 – A resolution authorizing the mayor to execute on behalf of the City of Ladue, Missouri a services agreement order form and government agency customer agreement between the City of Ladue and Flock Group Inc., wherein Flock Group Inc. agrees to provide for the installation and maintenance of an automatic license plate detection system and related software and hardware services in connection therewith.

Chief Andreski reported the Police Department has been researching these license plate readers. With the increase in stolen cars and car break ins, this will give the department increased information to work with in solving crimes. One reader will be mobile, and a second will be permanently placed near Price Road at Ladue Road. Reporting and recording license plate numbers will alert the department of stolen cars in the area. The information will be stored on the Cloud for 30 days.

After discussion, Council Member Brennan moved to adopt Resolution No. 2021-54, with second by Council Member Hensley the motion passed unanimously.

Resolution 2021-56 – A resolution declaring the City's legislative intent concerning how a use loses its legal nonconforming status and finding that the property at 301 S. Warson has lost its legal nonconforming status.

Ms. Sukanek stated that the Zoning Code currently defines a property losing the status by remaining idle, or unused for a period of one year, however, this is vague. Ms. Seele defined the proposed intent of the Council as cessation of the nonconforming use for a year as the basis for losing the status. As the property at 301 S. Warson has not been used as a gas station in over a year, it has lost its legal nonconforming status. It must operate in compliance with current City Code.

Council Member Fox moved to adopt Resolution No. **2021-56**, with second By Council Member Burroughs the motion passed unanimously.

Ten reports, and several calls for service. The department has been on the street 600 times this year.
